The questions that follow are a guide for your application. You may answer them directly or indirectly. (Use more paper if necessary). Kids should fill out their own applications if possible, or parents should quote their children directly (ie. please don't change your child's answers.) We are looking for information about you, and your thoughts and feelings about the following questions. There are no right or wrong, better or worse answers.

1. How long have you played the fiddle, and why did you start playing the fiddle?
2. Why do you play the fiddle today?
3. On average, how much concentrated time do you spend per day that somehow involves music or the fiddle? (this includes practicing, listening to fiddle music, studying other fiddlers, etc)
